

NAOMI KWAMBOKA ONYANCHIA

Automation & AI Systems Engineer

Building production-grade autonomous AI agent systems — from cloud security architecture to LLM workflow orchestration.

PROFESSIONAL PROFILE

Results-driven **Automation & AI Systems Engineer** and **natural problem-solver** with **over 4 years of progressive IT & technical experience** across cloud infrastructure, AI agent engineering, DevOps, and intelligent workflow automation. Currently architecting **production-grade autonomous AI agent systems** for a German media company and leading technical delivery at **TriqFlow Results**, an Automation and AI agency. Recognized by Rushlake's Founder & Managing Director as a *"vital part of the company's technical transformation."* Holds BSc Mathematics & Computer Science (Machakos University, 2023). Continuously expanding expertise **eager to learn and apply emerging AI and cloud technologies** to solve complex, real-world problems at scale.

WORK EXPERIENCE

Head of Systems & Technical Delivery

Feb 2026 – Present · 4 mo

TriqFlow Results · (CRM Automation Engineer)

- Leads end-to-end technical delivery: builds and optimizes **CRM systems, automation workflows**, and client-facing solutions from solution architecture through to client handoff
- Develops **Google Apps Script** automations and integrations; manages cloud resource allocation and API budgeting across **GCP and Render** for cost-optimized delivery
- Owns documentation standards — every system and script written so any team member can maintain it; builds **reusable templates** that accelerate future project delivery
- Provides cloud cost projections before committing to client solutions; flags blockers early; coordinates technical handoff documentation with client team

Automation & AI Systems Engineer

Dec 2024 – Present · 1 yr 5 mo

Rushlake Media GmbH · Cologne, Germany (Remote)

- Architects **autonomous AI agent systems on n8n** — designing agent attributes, deploying multi-step workflows, and processing large-scale data pipelines
- Manages deployment of TypingMind plugins via GitHub using **Node.js & JavaScript**; customizes LLM-powered tools to precise business specifications
- Administers containerized apps in Linux with **Docker**; engineers cloud-based data systems on **GCP** with strong focus on Cloud Security
- Developed internal CRM logic using **Google Apps Script & Python** supporting cross-team data pipelines

Operations & ICT Officer (promoted from IT Intern)

Jun 2023 – Jun 2025 · 2 yr

Obomo SACCO Ltd. · Kitengela, Kenya

- Managed member registrations, loan appraisal support, end-to-end documentation verification, and reconciliation reporting
- Delivered full ICT support while upholding **strict data confidentiality** across financial systems — promoted directly from internship for exceptional performance

Community IT Tutor

Mar 2020 – Nov 2024 · 4 yr 8 mo

Self-Employed · Kenya

- Delivered training on Windows & Linux OS, hardware/software troubleshooting, and system maintenance best practices

Research, Planning & ICT Attaché

Jan – Apr 2022 · 4 mo

Export Processing Zones Authority (EPZA) · Nairobi

- Processed and validated quarterly company returns in Excel; prepared meeting reports and managed official document workflows

FEATURED PROJECTS & PORTFOLIO

LIVE Automation & AI Engineering Portfolio

Interactive showcase of **9 production automation systems** running in real businesses — AI agents, invoice processors, WhatsApp bots, currency converters, intelligent file routers. Each project documents the problem, architecture, and outcome.

PORTFOLIO Cybersecurity & Cloud Security Work

Documented vulnerability assessments, GCP security architecture diagrams, threat models, and penetration-testing reports from USIU Cloud & Network Cybersecurity programme and Rushlake Media engagements.

drive.google.com/drive/folders/1EkD2329GL5Td4nAPonk2WMcJN1XGIA7H

Autonomous AI Agent & Workflow Automation System

n8n · Python · LLM APIs · GCP Cloud Run

Production-grade autonomous AI agent for Rushlake Media handling large-scale inbound data via custom n8n nodes; deployed serverlessly on GCP Cloud Run with autoscaling. (2025)

GCP Cloud Security Architecture & Network Vulnerability Assessment

GCP · IAM · VPC · Cloud Armor · Wireshark · Nmap · Kali Linux

Designed secure multi-tier GCP architecture with IAM hardening, VPC segmentation, and DDoS protection; conducted full-scope network traffic analysis with structured remediation reporting. (USIU / Rushlake, 2025)

CORE SKILLS

AI & Agents

n8n · LLM APIs · TypingMind · Agent Orchestration · Prompt Engineering

Programming

Python · JavaScript · Node.js · Apps Script

Cloud & DevOps

GCP · AWS · Docker · Linux · GitHub · Cloud Run · Render

Cybersecurity

Network Security · Threat Modelling · IAM · VPC · Pen-testing

Data & CRM

Google Sheets · Excel · IMPORTRANGE · QUERY · CRM Systems

CERTIFICATIONS

N8N & AI Agent Development **DONE**

Nairobi AI Community · Oct 2025 – Feb 2026

AWS Certified Cloud Practitioner **DONE**

AWS re/Start Programme · Sep – Dec 2025

Generative AI **DONE**

Moringa School · Sep – Oct 2025

Cloud & Network Cybersecurity **DONE**

USIU – Africa · Mar – Aug 2025

EDUCATION

BSc Mathematics & Computer Science

Machakos University · 2018 – 2023

ICDL

KCA University · 2018

LANGUAGES

English

Fluent

Swahili

Native

SOFT SKILLS

Analytical · Detail-Oriented · Adaptable · Self-Directed · Cross-Cultural · Cost-Conscious · Problem Solving · Organizational · Client-Oriented · Privacy and Confidentiality · Honesty and Integrity
